

Hi Paul,

LifeTec is a social enterprise that receives government funding for Home Modification Programs to assist clients to be more independent in their home and in the community. We have engaged Kro Panels as a project manager for many modifications to clients bathrooms and kitchens. Kro Panels has provided a great deal of experience that has been invaluable to our Programs. We have found Kro Panels extremely professional with a focus on client satisfaction and completing the project on time and in a safe manner. I have no hesitation in recommending Kro Panels as a Project Manager for Home modifications.

Regards,

Stephen Pether
